Mr. KANJORSKI (for himself and Mr. CARNEY) introduced the following bill;
which was referred to the Committee on Energy and Commerce

A BILL

To provide for the construction, renovation, and improvement

1 1,600,000 since the economic downturn began, ac-
2 cording to the Bureau of Labor Statistics.

3 (2) By 2020, the United States will face a
4 shortage of about 85,000 physicians, due in part to
5 the aging population, according to the Council on
6 Graduate Medical Education.

7 (3) The American Academy of Family Physi-
8 cians recommended in 2006 that to meet the need
9 of primary care physicians in 2020 the United
10 States would need to train 3,725 family physicians
11 and 714 osteopathic physicians annually, with an
12 overall goal of a 39 percent increase in family physi-
13 cians.

14 (4) The Association of American Medical Col-
15 leges has called for increased enrollment at Liaison
16 Committee on Medical Education accredited schools
17 from 15 to 30 percent over the 2002 levels by 2015.
18 This increase would boost the number of graduates
19 to about 20,000.

20 (5) The Federal Government has not supported
21 significant construction of medical schools since the
22 1960s and 1970s.
